

off-premise consulting

Customized Culinary Solutions works with Off Premise Caterers in a number of ways to help them astound competitors and grow their business. Our off-premise catering clients typically serve a major or mid-major metropolitan area and are looking to expand their present market or expand into new markets. Our clients are interested in unique knowledge of—and perspective on—the off premise catering industry, including everything from data entry, inventory management and ordering systems to menu development, tasting panels, presentation techniques and a whole lot more.

We want to work with you to complement and enhance your catering services. Together we could make an invaluable team for clients throughout your region!

Our services include:

- New business development and RFP support
- Customized special event, gala and open house menu writing
- Operational systems
- Catering staff training
- Catering software implementation
- Sales staff training
- Chef and culinary team mentoring
